About Me

Pursuing a B.Tech in AI & ML at MVGR College of Engineering, with expertise in Web Development, Python, and Java. Skilled in React.js, Frontend & Backend Development, and have completed coursework in Deep Learning and Neural Networks.

Certified in Cisco Python Essentials, Udemy Web Development, and Python for Deep Learning. Successfully completed a Web Development Internship (Intrainz).

Passionate about continuous learning, innovation, and developing impactful solutions. Open to collaboration and new opportunities.

Education

Bachelor of Technology - BTech, Artificial Intelligence and machine learning

MVGR College of Engineering   **2023-2027**

Intermediate
SASI Educational Institutions   **2021-2023**

Certifications

Python for Deep Learning: Build Neural Networks in Python   **Mar 2025**

Cisco Python essentials   **Feb 2025**

Generative AI   **Jan 2025**

Web Development certificate   **Aug 2024**

Internships

Generative AI Workshop   **Jan 2025**

Intrainz   **Nov 2024-Jan2025**

Android Developer   **July 2024- Sept 2024**

Projects

- *ChatGPT Clone* – **Using Ollama and Llama 2**
- **Lens App** – **Using Ollama and Llama 2**
- **Basic Calculator with Error Handling** – **Python**
